

November 28th, 2020

To Our Members,

Thank you to our members that have been utilizing our pools and aquatics programs! The aquatics industry has changed drastically over the past few months and we appreciate your willingness to work with us through these operational shifts. From social distancing to individual appointments, our pools run a little differently than we are used to. In the latest update to our aquatic industry guidelines set out by the state, lap swimmers are allowed to share a lane with another person. At that time, Samena felt the with myriad of other guidance changes our best route was to continue with single person lap lanes. However, with the closure of our fitness center, the demand on our pools for appointments has risen as well. As I am sure you are aware, it has become increasingly difficult to find a time slot in either the indoor or outdoor pool. Due to this, we have made the decision to allow half of our lap lanes to become shared lanes. The CDC continues to state that COVID-19 does not spread through properly treated pool water and we feel that we can offer a safe and socially distant option to exercise for our members. We also recognize that some of you are not ready to share a lane with someone from outside your household, which is why the other half of our lap lanes will remain single person lanes.

Starting Monday December 7th, lanes 3,4, and 5 of both our indoor pool and outdoor pool will become shared lanes. You will only be able to have 1 person per appointment and you will be sharing the lane with another member. Each user will have a designated resting wall. This means that swimmers must be able to swim across the pool and back without stopping to get back to their designated resting wall. For those who are not ready to share a lane or need both walls to be able to rest, lanes 1,2, and 6 of both our pools will continue to be single person lanes. Just like before, you can bring up to 1 other person from your household, or up to 4 other people in our "Household Lane 6" to these single lanes.

Also, beginning on December 1st we will be open until 10 pm on Tuesdays and Thursdays. We have added one last swim to the indoor pool from 9-9:45pm and the outdoor pool from 9:05-9:50pm. [Reserve your space today!](#)

With our industry leading cleaning and safety procedures, we feel confident that we can provide a safe, low risk environment for our members to enjoy our pools. If you have any questions, please feel free to reach out.

Thank You,

Tonya Swick
Executive Director

Mark Feeney
Aquatics & Facilities Director
