Lap Swim and Open Swim

On March 22nd, guidance was released to allow us to expand our aquatic operations for Phase 3 of the Healthy Washington Plan.

In accordance with the guidance from [COVID-19 Prevention Guidance and Reopening of Water Recreation Facilities in Phases](#) put out by the Washington State Department of Health the Samena Club will be expanding capacities and begin moving away from our reservation system. Members will reserve a time slot but not a specific lane in our pool. Samena will utilize on-line, in App, and phone-in reservation systems to make reservations to limit in person interactions. Reservations are still required.

Transactions at this time will be limited to credit card only to eliminate the handling of cash.

All members will be required to sign a waiver of consent and commitment to the facility's reopening policies.

Safety is our top priority as we continue our staged re-opening. To ensure the health of our members and team, we have created a new schedule that limits capacities to ensure social distancing requirements and provides time to clean and sanitize throughout the day. As part of the Club's ongoing safety plan, things will look a little different. All members will be asked to complete a health screening upon entering the facility, to wear a mask/face-covering while in the building, and to adhere to social distancing. In addition to our online reservation/registration process we have instituted contactless check in, enhanced cleaning procedures, and clear designations for social distancing. We are beyond excited to welcome you for our next phase of operations.
